# Ferrara International Phonology Meeting

*Phonological questions for the next decade*

Ferrara, 9 -10 October 2014

The meeting is partially supported through the PRIN 2012 grant "Theory, experimentation, application: long distance dependencies in forms of linguistic diversity" - Università di Firenze

The first International Phonology Meeting, to be held in Ferrara on 9-10 October 2014, intends to give to scholars concerned with generative linguistics an opportunity for discussion, on such research areas as the place of phonology in the grammar and the primes and nature of phonological representations.

The Meeting's aim is to point out questions that are empirically and theoretically crucial for research in phonology in the mid and long term.
